

# DR. TAKAYUKI YOSHIDA

*MD, PhD, MClinRes, EDRA*

*Department of Anesthesiology*

*Kansai Medical University Medical Center*

Dr. Takayuki Yoshida is an Assistant Professor in the Department of Anesthesiology at Kansai Medical University Medical Center, Osaka, Japan. He earned his M.D. and Ph.D. degree from Niigata University, where he researched the effects of ropivacaine on sensory block spread in thoracic paravertebral blocks.

Dr. Yoshida further advanced his expertise with a Master of Clinical Research from Monash University and a Clinical Fellowship in Regional Anesthesia at the University of Toronto. He holds several prestigious certifications, including those from the Japanese Society of Pediatric Anesthesiology, the Japanese Society of Regional Anesthesia, and the European Diploma in Regional Anaesthesia and Acute Pain Management (EDRA).

His career is distinguished by numerous awards such as the Young Investigator's Award and the Distinguished Teacher Award. Dr. Yoshida is actively involved in professional societies, including the Japanese Society of Pediatric Anesthesiology and the Japanese Society of Regional Anesthesia and Pain Medicine, where he contributes to committees focused on education, clinical research, and foreign affairs.

Dr. Yoshida's research and clinical work primarily focus on regional anesthesia techniques, acute pain management, and ultrasound-guided vascular access procedures. His contributions to the field are well-recognized, making him a prominent figure in anesthesia practice and education.
