

Shinichi Sakura, MD.

Dr. Sakura is Head of Department of Anesthesiology at Unnan Municipal Hospital and Professor Emeritus of Shimane University Faculty of Medicine in Japan. He graduated from Shimane Medical University, Japan, where he received his basic clinical anesthesia and research training. He worked as a postdoctoral research fellow at the Department of Anesthesia, University of California, San Francisco to do research on local anesthetic neurotoxicity. Dr. Sakura's research has involved balanced anesthesia, epidural anesthesia and respiratory function, spinal anesthesia, ultrasound-guided peripheral nerve blocks, and neurotoxicity of local anesthetic, about which he has many publications in international journals. He has been invited to present lectures and participate as a faculty member and/or instructor for peripheral nerve workshops at many international meetings. He is an associate editor for Journal of Anesthesia and has been a guest reviewer for leading international anesthesia journals including Anesthesiology, Anesthesia & Analgesia, British Journal of Anaesthesia and Regional Anesthesia & Pain Medicine.
